### SL Power Hosts “Powering Critical Solutions” Sales Conferences Across North America

*Sales Events focused on Growing with New Product Innovations*

**VENTURA, Calif. — April 20, 2016 —** [SL Power Electronics](http://www.slpower.com), a division of SL Industries (NYSE: SLI) and an industry leader in power solutions designed to comply with the highest levels of electromagnetic interference (EMI), electromagnetic compatibility (EMC) and thermal performance, is pleased to announce that its regional [sales conferences](#) to date have been very successful.

“Our sales partners have been very excited about the tremendous new growth opportunities available for them with our new products and solutions,” said Jim Hamblin, head of distribution sales for SL Power. “Our ‘Powering Critical Solutions’ regional sales conferences have been a great venue to bring together our partners to collaborate and learn, in detail, the emerging global power market trends and new differentiated solutions for lighting, medical and test & measurement.”

During the one-day events, SL Power is introducing the latest AC/DC external and internal power supplies that exceed the latest Department of Energy’s (DoE) Level VI efficiency standards as well as the 4<sup>th</sup> edition of IEC60601-1-2 for medical applications.

“We expect a lot more enthusiasm from our upcoming Chicago (April 28) and San Jose (May 25) events as well as in Germany and China,” said Hamblin.

For more information on SL Power’s sales conferences – including Germany and China locations – visit [www.slpowerconference.com](http://www.slpowerconference.com). For more information on SL Power’s extensive power conversion solutions for a wide variety of demanding applications, contact a local SL Power representative, who can be found on the SL Power Web site at [www.slpower.com](http://www.slpower.com).
